

# ENVIRONMENTAL MANAGEMENT POLICY

Integrated Management System

ENV-PS-1

The Hi-Quality Group recognises the importance of integral environmental management. We acknowledge that environmental management requires continual assessment and improvement. This is how we do business to enable us to work effectively in a diverse range of environments and community settings.

Our environmental policy objective is to minimise the adverse impact on the environment as a result of our business activities.

## To achieve this objective, we will:

- Establish, implement and maintain an Environmental Management System in accordance with AS/NZS ISO 14001.
- Set environmental objectives and targets to measure our performance and identify opportunities for improvement.
- Comply with approval, environmental and contractual conditions, relevant legislation and other criteria to which the company subscribes.
- Provide adequate resources to regularly review business operations and processes to identify and implement opportunities for improvement
- Educate our workforce on key environmental issues, management controls and associated responsibilities.
- Strive to prevent pollution, reduce waste and commit to recovery and recycling where feasible.
